FACT SHEET

- Skyline Design Luxury Outdoor Furniture is suitable for year-round outdoor use. Skyline Design materials are made of high density polyethylene (HDPE) which offers the right blend of tensile strength and bending properties necessary for weaving. HDPE's superior weather and chemical resistance makes our furniture suitable for all applications, ideal for outdoor usage and is weatherproof, UV resistant and available in a wide range of colors and profile shapes.
- Aluminum frames are finished with a multistage deluxe powder coat process giving unsurpassed long lasting quality and resistance to corrosion and/or blistering.
- All outdoor cushions are filled with high-grade polyurethane foam which helps maintain shape, comfort and durability and are covered in Sunbrella® fabric.

WARRANTY AND CLEANING

- A 3 year limited warranty for residential installation covers all defects associated with workmanship or materials of Skyline Design, 1 year limited warranty for commercial use.
- Cushions have a separate 1 year limited warranty which does not cover failure due to neglect or lack of maintenance, acts of nature, inappropriate cleaning agents and/or freight damage.
- To keep cushions looking good and delay any deep or vigorous cleaning it is recommended to soak fabric in a solution of 1/4 cup mild soap per gallon of lukewarm water. Next, use a sponge or a soft bristle brush as necessary to remove soil. Rinse thoroughly to remove all soap residue and allow fabric to air dry completely. Machine Washing - Machine wash in cold water (less than 100°F/38°C). To avoid mildew, after excessive water accumulates in cushions, open cushion zipper and place cushions on zipper end allowing to air dry. It is not recommended that the cushion skins be dry cleaned, or machine dried. Bleach or chlorine based cleaners should not be used on acrylic fabric.
- Locating an authorized retailer or certified interior designer to buy Skyline Design furniture can be done on our website under dealer locator.
